# SIGMA

**PAYTEC**  
smart payments for vending

ELECTRONIC  
PAYMENTS  
TERMINAL

**Smooth payments. Instant settlements. Transparent rates.**

The SIGMA terminal accepts **contactless bank cards, magnetic stripe cards or with chips and digital wallets** such as Apple Pay and Google Pay. Developed on Android 11 platform, it is ready for a wide range of future integrations.

- ▶ Transactions processed in seconds and funds available on your myPOS account **in real time**
- ▶ **Transparent bank fees** on a percentage basis, with no hidden costs

## ANDROID TECHNOLOGY IN A ROBUST DESIGN, SUITABLE FOR ANY ENVIRONMENT

- ▶ **Android terminal with 5" touch screen**, with IP65 weatherproof certification and IK08 for physical protection against daily wear
- ▶ **PIN-on-screen** removes barriers due to the frequency of purchases and product pricing
- ▶ **Backlit screen** to display notifications and animations

## ADVANCED CONNECTIVITY

- ▶ **Stable connection** via Wi-Fi, 4G or LAN
- ▶ **Multi-operator SIM card**
- ▶ Works as **cashless MDB 1 or 2**, both in credit-first and selection-first mode

## PLUG&PLAY INSTALLATION

- ▶ **Fast registration process, completely online**: you can start using the terminal in a few days
- ▶ **Dedicated mounting frame and external 4G antenna** included

## COMPLETE MONITORING IN REAL TIME

- ▶ **Complete and customizable reports** on myPOS portal, available from desktop or via app
- ▶ **Refunds with a simple click** directly from the portal
- ▶ **Immediate access to funds** thanks to the corporate debit card linked to myPOS account

**Plus an ever-growing range of innovative services and tools to optimize your business!**

### Who is myPOS?

myPOS Ltd is an Electronic Money Institution. It has been operating for over 10 years providing e-money and instant payment services in all EEA countries.
